Emil Jädersten Junior Full Stack Developer | Tierp, Sweden

emiljadersten@gmail.com | +4608408871 | www.linkedin.com/in/emil-jadersten | www. github.com/EmilionR

Full Stack Developer Diploma graduate with strong proficiency in developing Web Applications using Python, JavaScript, CSS and HTML as well as utilising Programming frameworks such as Django and Bootstrap. Currently seeking Junior Software Developer opportunities where I can showcase my existing skills and progress further.

Certifications

Full Stack Developer Diploma – Code Institute (2020)
Modules included: HTML, CSS, JavaScript, Python
Additional Activities: 3rd Place winner of Code Institute Hackathon June 2021
Part of a 3 member game studio published on Steam

Interests

- Furthering my coding knowledge by building personal projects, including web applications built using React and C#
- Researching Machine Learning & Natural Language Processing. Created a home virtual environment using Python to explore this
- Attended numerous Hackathon competitions, being placed 1st and 3rd in 2 competitions hosted by the company, SharkWhite, specializing in AI and Cyber Security solutions. Milestone Coding

Technical Skills

Languages	Databases	Front-End Frameworks	Additional Technology
Python	MongoDB	Bootstrap	Django
Javascript	SQL Server	Sass	Git
HTML & CSS	PostgreSQL	React	Wordpress
SQL	NoSQL		GitHub
Java			Trello

Technical Skills

Languages	Databases	Front-End Frameworks	Additional Technology
Python	MongoDB	Bootstrap	Django
JavaScript	SQL Server	Vue.js	GIT
C#	PostgreSQL	AngularJS	nUnit
SQL	NoSQL	Angular	AWS

Projects

Interactive Game - 3rd milestone project: game built using **Python, JavaScript, CSS & HTML**: billygates.github.com/interactivegame

Shopping List - 2nd milestone project: built using **JavaScript, HTML & CSS:** billygates.github.com/shoppinglist

Work Experience

Example– Firm, City   Jan 2015 –Nov 2020
- Role and tasks
- more tasks/roles
- etc
